
Ontospy Documentation

Release 1.7.4

Michele Pasin

Dec 12, 2018

Contents

Ontospy is a lightweight Python library and command line tool for inspecting and visualizing vocabularies encoded in the [RDF](#) family of languages.

Note: 2017-03-17: The documentation has moved to the GitHub Wiki: <https://github.com/lambdamusic/Ontospy/wiki>
